# IT Technician

## Grade 3A (£26,018)
## 37 hours per week, 52 weeks per year

*Membership of the Local Government Pension Scheme is available, together with access to a comprehensive staff wellbeing programme and ongoing professional development opportunities.*

We seek an ambitious, enthusiastic and self-motivated individual to join our Network Team as an IT Technician.

Working as part of a friendly and dedicated IT team, you will undertake a wide range of tasks, including, but not limited to, maintaining and supporting the school's IT infrastructure and delivering effective IT services, support and solutions to staff and students of The Petersfield School, as well as to other schools supported by the Trust.

You will join a supportive and experienced Network Team that provides ICT services across The Petersfield School and other schools within the Trust, offering excellent opportunities to learn from experienced professionals and develop your technical skills. As an integral and highly valued member of the school community, you will be customer-focused, proactive and, where necessary, reactive in supporting the smooth and efficient operation of the school's ICT systems and services. You will assist with the installation, maintenance and support of a wide range of hardware, software and network technologies, ensuring that users receive a high standard of support, and that technology is used effectively throughout the school.

The successful candidate will be competent in diagnosing and resolving technical issues and will have the ability to work both independently and collaboratively within a team environment. You will bring a methodical yet creative approach to problem-solving, excellent organisational skills and the ability to prioritise workloads effectively. A calm, professional and approachable manner is essential when supporting colleagues, students and visitors.

This is an excellent opportunity for someone looking to develop their career in ICT within a thriving educational environment. You will gain valuable experience across a broad range of technologies, including Microsoft 365, Active Directory, Windows devices, endpoint management, networking, cloud services, audio-visual systems and educational technologies, while contributing to projects that enhance teaching, learning and operational efficiency across the Trust.

As part of a highly successful Multi Academy Trust, this role offers the opportunity to work with a wide range of technologies and gain experience across multiple educational settings. Whether you are looking to take the next step in your IT career or build a solid foundation

within a professional ICT environment, you will be supported through training, mentoring and hands-on experience within a skilled and welcoming team.

You will also be required to set up and support IT and audio-visual facilities for assemblies, examinations, meetings, parents' evenings and other school events as required. Flexibility, reliability and a positive, can-do attitude towards supporting all members of the school community are therefore essential.

Working knowledge or experience of network systems, server administration and Microsoft technologies would be advantageous, but is not essential, as full support and development opportunities will be provided. Previous ICT experience within the education sector would also be beneficial, although applications are welcomed from candidates with transferable technical skills and a genuine passion for technology and customer service.

We welcome applications from candidates at different stages of their IT career and are committed to supporting professional development through training, mentoring and hands-on experience.

The successful candidate will demonstrate a genuine enthusiasm for technology, enjoy problem-solving and take pride in delivering excellent customer service. They will fully embrace the school's **Enjoy, Respect, Achieve** ethos and be a team player who is committed to supporting students, staff and the wider school community.

*The Petersfield School is committed to safeguarding and promoting the welfare of children and young people and expects all staff and volunteers to share this commitment. An enhanced DBS check will be required prior to any offer of employment.*

Please visit our website at **www.petersfieldschool.com** and select **About > Vacancies** for further information and an application form.

Potential candidates are advised to apply as early as possible. We reserve the right to interview suitable applicants before the closing date. Shortlisted candidates will be subject to pre-employment checks, including an enhanced DBS check, online and social media screening, and satisfactory references.

Completed applications should be sent to **recruitment@petersfieldschool.com**

**Closing Date:** Monday 7 December

**Interviews:** To follow shortly thereafter. We reserve the right to interview and appoint before the closing date; therefore, early applications are encouraged.

*The Petersfield School is part of the highly successful Bohunt Education Trust (Multi Academy Trust). More information can be found at www.bohunttrust.co.uk.*
*Bohunt Education Trust is committed to safeguarding and promoting the welfare of children and young people and requires all staff and volunteers to share and demonstrate this commitment. We are committed to equality of opportunity for all staff and applications from individuals are encouraged regardless of age, disability, sex, gender reassignment, sexual orientation, pregnancy and maternity, race, religion or belief, or marriage and civil partnership status. The successful candidate will be subject to pre-employment checks,*

*including enhanced DBS checks (including a self-disclosure form), online and social media checks, and satisfactory references.*
