Team TPS Weekly

TPS | The Petersfield School

Friday 9 October 2026

Welcome from

The Team TPS Outdoor Education Coordinators

I am truly honoured to be working alongside Miss Taylor as your TPS Outdoor Coordinators, following in the footsteps of our beloved Mr Newton.

Our main goal this year is to make sure everyone gets the chance to get outside, try new things, and have an absolute blast. I'll be running the Year 7 camp, helping our Silver DofE groups tackle their

expeditions, and taking to the water with the Sailing Club and the Ocean Youth Trust voyages. Plus, Miss Taylor and I are launching a brand-new Paragliding Club, which is going to be incredible!

Whether you're already an outdoor pro or you've never slept in a tent in your life, there's a place for you. Get involved, give it a go, and let's make this an unforgettable year of getting outside with your mates!

Miss Howell

Coming Soon!

This year's RAG Week will run from 19 October - 23 October. It promises to be a fun-filled week of activities for staff and students to get involved in. All money raised will be split between Butser Home Start and The Rosemary Foundation.

Please note that we are a cash-free school, so all activities will require tokens which can be purchased via ParentPay from early next week!

More details to follow next week.

Mon 19 October – Fri 23 October

Paid Opportunity

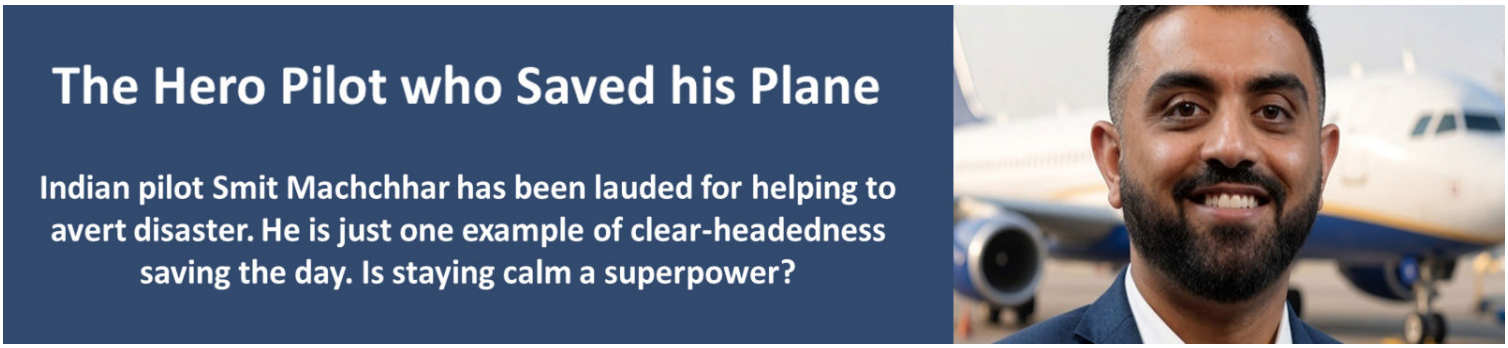
Host Families Wanted for UK - China Cultural Exchange Programme!

Elite Journey is delighted to be returning to The Petersfield School (TPS) this winter as part of our ongoing UK-China Cultural Exchange Programme.

As part of the exchange, we are once again looking for host families within the TPS community to welcome these students into their homes and provide them a warm and supportive environment during their stay.

For more information, please click on the link below:

Host Families



This week for TPS Talks we have been finding out about a dramatic incident on board a passenger plane, where a pilot and several passengers helped prevent a potential disaster after a violent attack in the cockpit.

Students have been discussing and debating whether staying calm under pressure can be a superpower, exploring how people react differently in dangerous situations and why some individuals are able to remain focused during a crisis. They have also considered the important role emotions such as fear, worry and anxiety can play in helping us recognise and respond to problems.

They have been tasked with thinking about whether keeping calm is always the best course of action, and whether there are situations where feelings of concern or panic can encourage people to make positive changes and seek help when they need it.

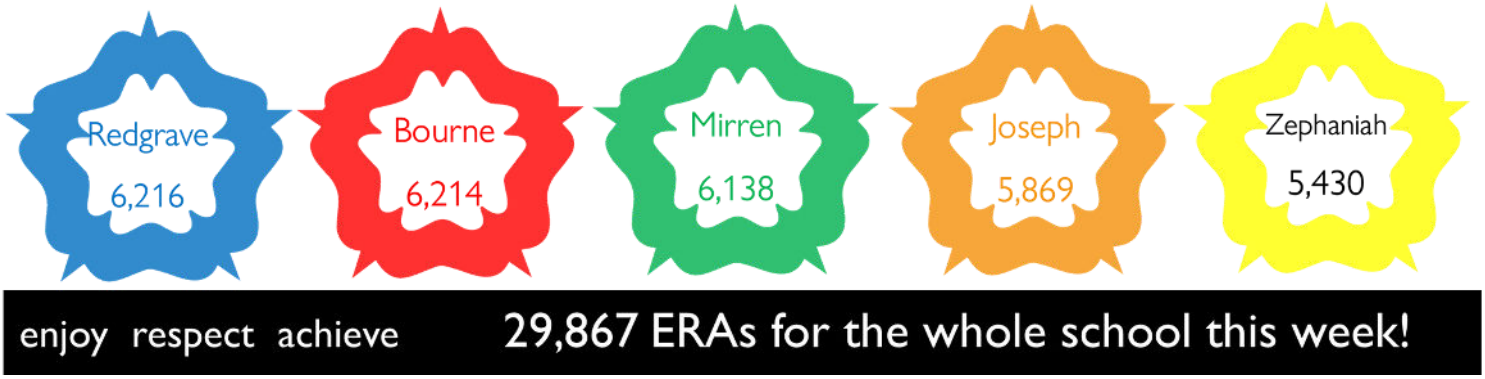
KS3 Ignite Workshop

Thursday marked the first KS3 Ignite workshop of the year with Kat Wootton from Butser Ancient Farm delivering a hands on session with stinging nettles.

Year 7 and 8 students were intrigued to learn about all of the different things that stinging nettles have been used for throughout human history, from food, to medicine to textiles. They then had the opportunity to try cordage and create their own stinging nettle bracelets!

Congratulations Redgrave!



enjoy respect achieve 29,867 ERAs for the whole school this week!

TPS - Spotlight

To celebrate European Day of Languages, students and teachers had the opportunity to take part in a range of activities across the school.

Some teachers promoted language learning by showing off their language skills or challenging themselves to say something in another language. Students also took part in assemblies with Miss Jones and Miss Garcia Garcia, and had the opportunity to take part in our European Day of Languages Pokémon scavenger hunt!

It was lovely to see students greeting their teachers in different languages throughout the week and celebrating the many languages spoken in our school community.

Is my child too ill for school?

UK Government NHS

Does your child have a high temperature (38°C or more)? YES Keep them off school until it goes away. NO Follow the guidance below.

Your child can usually go to school with a mild cough or cold if they are otherwise well. If you do keep your child at home, it's important to phone the school or nursery on the first day and give them the reason.

Should go in	Should go in (let the school know)	Seek treatment before returning to school	Keep them off (at first)
A cough, cold or sore throat Fine with slight cough or common cold symptoms, such as a runny nose, sore throat or headache, as long as they're otherwise well and do not have a high temperature. **Threadworms** Speak to your pharmacist, who can recommend a treatment.	**Cold sores** Encourage them not to touch the blister or kiss anyone while they have the cold sore, or to share things like cups and towels. **Conjunctivitis** Fine unless they are feeling very unwell. Seek advice from your pharmacist. Encourage your child not to rub their eyes and to wash their hands regularly. **Head lice & nits** You can treat head lice and nits without seeing a GP. **Hand, foot & mouth disease** If they seem well enough to go to school, there's no need to keep them off. Encourage your child to throw away any used tissues straight away and to wash their hands regularly. **Slapped cheek syndrome** Once the rash appears, they're no longer infectious. Let the school or teacher know if you think your child has slapped cheek syndrome.	**Impetigo** They'll need treatment from a pharmacist or GP, often with antibiotics. Keep them off school until all the sores have crusted over and healed, or for 48 hours after they start antibiotic treatment. Encourage your child to wash their hands regularly and not to share things like towels and cups with other children at school. **Ringworm** See your pharmacist unless it's on their scalp, in which case you should see a GP. It's fine for your child to go to school once they have started treatment. **Scarlet fever** They'll need treatment with antibiotics from a GP. Otherwise they'll be infectious for 2 to 3 weeks. Your child can go back to school 24 hours after starting antibiotics. **Chickenpox** Keep them off school until all the spots have crusted over. This is usually about 5 days after the spots first appeared.	**Ear infection** If your child has an ear infection and a high temperature or severe earache, keep them off school until they're feeling better or their high temperature goes away. **Measles** They'll need to see a GP. Call the GP surgery before you go in, as measles can spread to others easily. Keep your child off school for at least 4 days from when the rash first appears. They should also avoid close contact with babies and anyone who is pregnant or has a weakened immune system. **Vomiting & diarrhoea** Stay away from school until they have not been sick or had diarrhoea due to illness for at least 2 days (48 hours).

Feeling worried or anxious: It's normal for any of us to feel worried sometimes. We may get a tummy ache or headache, or have problems eating or sleeping. Avoiding school can sometimes make a child's worries about going to school worse. If your child is struggling, please speak to school as soon as possible to explore available help. If your child is still struggling and it's affecting their everyday life, you should contact GP or school nurse.

E-Safety

At National Online Safety we believe in empowering parents, carers and trusted adults with the information they need to hold an informed conversation about online safety with their children, should they feel it is needed. This guide focuses on one platform of many which we believe trusted adults should be aware of. Please visit www.nationalonlinesafety.com for further guides, hints and tips for adults.

Smart devices promise to make our lives easier. In many cases - they do, however these new technologies present risks too. Whether you're using a digital assistant to record your shopping list or you're controlling your lights through a smart system, many smart functions can be 'hacked' and controlled by someone outside your home. This guide will help you identify some of the ways you can stay alert and protect yourself.

1 KNOW THE RISKS

The success of any smart device relies on it communicating with other devices using the Internet. It's an unavoidable part of using smart devices, but it does expose you to numerous risks. Attackers could use the Internet connection to steal your data for identify fraud or to make unauthorised purchases through your devices. There is even potential for more sinister exploitation, such as child grooming or cyber-bullying.

2 WHAT IS THE INTERNET OF THINGS?

This is the term given to all the devices connected to the Internet in your home. It includes a new digital doorbell connected to your smartphone, your kettle that boils when you tell it to on your tablet or your heating that comes on when you swipe on your smart watch. The Internet of Things (IoT) is designed to make life easier, but it also opens up your home network to potential cyber-attacks. It doesn't mean you can't enjoy the benefits, but it does mean being aware of the potential negatives.

3 CHECK ENCRYPTION SETTINGS

Whenever data is sent over the Internet, it is 'encrypted'. This makes it harder to read if it's intercepted. You should look to use a strong encryption setting, such as WPA2, rather than WPA or WEP. You can check your router manual on how to do this.

4 KEEP YOUR SOFTWARE UP TO DATE

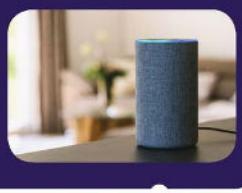
Manufacturers constantly update and improve software used in smart devices. Some will automatically alert you to an update, but not all do. To be on the safe side, it's a good idea to set reminders in your calendar. Check the manufacturer's website for any updates and run them if necessary.

5 RENAME THE 'GATEWAY' TO YOUR HOME

Your Internet router is the virtual gateway to your home network. It needs protecting. To do this, you should change the default name (the SSID) and password. You can usually find steps to do this in the instruction manual. Don't use your family name. Choose something more obscure. Make the password complicated too, using upper and lower-case letters, numbers and symbols. Do this for your router and any other smart devices connected to the Internet.

12 Top Tips To Get Smart About The DEVICES In Your Home

National Online Safety®



6 USE A SEPARATE NETWORK FOR GUESTS

If your router has a feature that allows you to set up a separate network for guests, you should use it. That way, when guests use your Wi-Fi, they won't have access to your devices.

7 SAY GOODBYE TO SIRI AND ALEXA

It's a good idea to change the activation words on your smart devices so they are unique to you and your family. This makes it that much harder for people to break into your smart devices.

8 DEACTIVATE ANY UNNECESSARY FEATURES

Though it's a fun idea, you probably don't need to control your kettle from outside the house. In fact, there are often many unnecessary features included on smart devices. Where possible, you should look to disable these. Doing so reduces the ability for people to hack your devices. When someone sees you've actively taken steps to increase security, they're less inclined to try to compromise them.

9 TRUST YOUR INSTINCTS

If you ever feel something is wrong or your network is being exploited, visit the manufacturer's website or ring their technical support department. It's better to be safe than sorry.

10 BUILD A WALL

You could also purchase a dedicated 'firewall' device. This is something that plugs into your network and stops cyber threats reaching your router. Some routers do have a firewall element included, but they are no replacement for the real thing. A firewall device thoroughly analyses information coming in and out of your network and helps stop malicious attacks. A security device is strongly recommended to anyone who works from home or deals with sensitive information.

11 SECURE YOUR SMARTPHONE

If you do use apps on your smartphone to control devices in your home, make sure your smartphone is secure. At the very least makes sure the pin function is enabled, as well as any biometric authentication you have. Where possible, it's also a good idea to download some anti-virus software for your smartphone too.

12 REGULARLY AUDIT YOUR DEVICES AND CONSOLES

Every now and then you should check through all of your smart devices (including games consoles connected to the Internet). Turn them off at the mains and disconnect them from the Internet. In fact, it's good practice to disconnect any devices that aren't in use. It's a small thing but really does help. Even when you think a device might be in sleep mode, if it's connected to the Internet it could still be listening or streaming data.

Meet our expert

Emma was a secondary school Computer Science teacher for more than decade. Since leaving education, she has been working in a cyber security firm delivering cyber awareness training to businesses and carrying out network testing. She is a mother of a five-year-old and has vast experience of controlling and managing how children access online services and use apps.

Sports Results and News

Friday 2nd October

Year 11 Boys Football National Cup Round 2

TPS 0-0 Hounsdown (TPS won on penalties)

Congratulations to our Year 11 team who after years of narrow defeats they have made it through in the National Cup. The win has been well deserved after some recent excellent performances in the league. The game was close with chances at both ends, unfortunately the game went to a dreaded penalty shootout. TPS held their nerve and march onto the next round.

Year 11 Girls Handball Southern Counties Qualifiers

TPS 14-3 Oaklands

TPS 14-5 Swanmore

Well done to our girls handball team who had their first game of the season this year on Friday. A big squad expertly coached by Izzy ran out strong winners after wins against Oaklands and Swanmore. TPS will now get the chance to play in the Super 6 Southern Counties finals in April at Chichester University. Best of luck to the girls when this comes round.

Monday 5th October

ESAA XC Cup Round 1

Tuesday 6th October

Year 8 Football WSW League

TPS 0-1 Felpham

A really close game for the Year 8's as they started their league campaign this week. Chances created at both ends with even balls cleared off the line on multiple occasions but TPS struggled to find a break through. In the end Felpham ran out 1-0 winners after a counter attack early in the second half settled the difference between the two teams.

Wednesday 7th October

Year 11 Football WSW League

TPS 2-0 Bourne

Year 9 Girls Hockey @ Bedales

Thursday 8th October

Year 7 Girls Football National Cup Round 1

TPS 0-5 Weydon

Year 11 and Year 10 Netball WSW League
