

# Educational Visits & Trips 2011 - 2012

At TPS we strive to provide students with a diverse range of learning and enrichment opportunities that cater for the needs and interests of all students. It is our intention to help students and their parents make informed decisions about which activities are most appropriate for them. The overview shown below is a guide to a typical years activities, organised by our staff and with the costs based on those from the previous academic year. The range of opportunities will vary annually but individual activity leaders will be able to confirm if the activity is going ahead and they can be contacted at school most easily via email.
