

Counselling at TPS

We would like to inform you that at TPS we are able to offer families the chance to book subsidised child counselling spaces, providing families a more cost-effective option than at a private practice.

Counselling can be useful for anxiety, depression, loss/separation, bereavement, low self-esteem, difficult relationships, questions around identity, and many other things.

These sessions can be held at TPS and are available to any of our students. If you are interested, please do contact your child's Progress Leader.
